

## Coming Fall 2009... Preschool for Active Learning (P.A.L.) Young Fives

Young Fives is designed for those students who are kindergarten age eligible (5 by Dec. 1), and would benefit from another year of preschool experience before entering kindergarten. Knowing that all children mature and develop at different rates, Young Fives will provide appropriate experiences to assist young students with their social, emotional and cognitive development.

Young Fives will focus on all areas of development. Children enjoy participating in a hands-on environment that will contribute to readiness and success in kindergarten and beyond.
